Independent Auditor's Report

The Honorable Bill Haslam, Governor Members of the General Assembly Members of the Board of Directors Mr. Ralph Perrey, Executive Director

Report on the Financial Statements

We have audited the accompanying financial statements of the Tennessee Housing Development Agency, a component unit of the State of Tennessee, as of and for the years ended June 30, 2014, and June 30, 2013, and the related notes to the financial statements, which collectively comprise the agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness

of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of directors of the Tennessee Housing Development Agency. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Tennessee Housing Development Agency.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tennessee Housing Development Agency as of June 30, 2014, and June 30, 2013, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the agency's basic financial statements. The accompanying financial information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally

accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2014, on our consideration of the agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the agency's internal control over financial reporting and compliance.

TENNESSEE HOUSING DEVELOPMENT AGENCY Management's Discussion and Analysis

Introduction

This section of the Tennessee Housing Development Agency's (THDA) annual financial statements presents management's discussion and analysis of THDA's financial performance for the years ended June 30, 2014, and June 30, 2013, with comparative information presented for the fiscal year ended June 30, 2012. This information is being presented to provide additional information regarding the activities of THDA and to meet the financial reporting and disclosure requirements of the Governmental Accounting Standards Board (GASB) Statement Number 34, Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments. This section should be read in conjunction with the Independent Auditor's Report and the audited financial statements and accompanying notes.

The mission statement of THDA is "Leading Tennessee Home by creating safe, sound, affordable housing opportunities." THDA's goal is to provide housing assistance to those in need by offering a variety of housing-related programs. One of the primary ways THDA assists Tennesseans is by offering mortgages for first-time homebuyers at below conventional market interest rates. At the close of fiscal year 2014, THDA has originated over 115,000 single-family mortgage loans in its 41-year history, and serves as the master servicer for all active mortgages it funds. In addition to helping homebuyers, THDA administers Section 8 rental assistance programs, including the tenant-based Housing Choice Voucher (HCV) program in approximately 75 of Tennessee's 95 counties, as well as the project-based Contract Administration program for approximately 400 contracts throughout all of Tennessee. THDA also administers grant programs, awarded on a competitive annual cycle, for rehabilitation and new construction of owner-occupied units and small rental projects. THDA is also involved in the development and rehabilitation of multifamily rental housing for low-income families by administering the federal Low-Income Housing Tax Credit, which is a competitive process, and by setting aside a portion of bond authority to be allocated to local issuing authorities for specific multifamily developments.

More recently, THDA has administered programs under the American Recovery and Reinvestment Act of 2009 (ARRA), including the Homeless Prevention and Rapid Re-Housing Program (HPRP), the Tax Credit Assistance Program (TCAP), the Neighborhood Stabilization Program (NSP), and a Low Income Housing Tax Credit exchange program under Section 1602 of the Act.

As established by Section 13-23-105, *Tennessee Code Annotated*, "the agency shall have a board of directors which shall be responsible for carrying out the powers given to the agency." This board meets regularly on a bi-monthly basis; however, some committees may meet more often as situations dictate.

Overview of the Financial Statements

The basic financial statements include statements of net position; statements of revenues, expenses, and changes in net position; and statements of cash flows, as well as notes to the financial statements. The statements of net position provide financial information on the overall financial position of THDA at each year end. The statements of revenues, expenses, and changes in net position summarize the results of operations over the course of each fiscal year. The statements of cash flows provide relevant information about THDA's cash receipts and cash payments during each fiscal year.

The notes to the financial statements provide essential information regarding THDA's significant accounting policies, significant account balances and activities, certain material risks, obligations, commitments, contingencies, and subsequent events.

THDA's financial statements are presented using the accrual basis of accounting and the flow of economic resources measurement focus. In addition to the basic financial statements, required and other supplementary information is included.

THDA is also considered to be a discretely presented "component unit" for the State of Tennessee, and therefore, its financial information is reported in the State of Tennessee's government-wide *Comprehensive Annual Financial Report*. This report may be viewed at www.tn.gov/finance/act/cafr.shtml.

During fiscal year 2013, THDA implemented several accounting standards, including GASB Statement 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements; GASB Statement 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and GASB Statement 65, Items Previously Reported as Assets and Liabilities. Among the requirements of these pronouncements, GASB Statement 63 required the reclassification of net assets to net position, as well as the reclassification of certain deferred amounts to new categories called deferred outflows of resources and deferred inflows of resources. As applicable to THDA, deferred amounts from bond refundings, which were previously reported as a component of bonds payable (noncurrent), are now reported as deferred outflows of resources. In addition, bond issuance costs, which previously was reported as an asset (deferred charges) and amortized over the life of the bonds, is now recognized as expense in the period when incurred. GASB Statement 65 required retroactive implementation and reporting for all financial periods presented; therefore, beginning net position for fiscal year 2012 was restated to reflect the retroactive application of GASB Statement 65.

Restricted	449,905	489,105	503,563

Comparison of FY 2014 to FY 2013

- THDA's total net position increased by \$0.5 million, or 0.1%, from \$526.5 million at June 30, 2013, to \$526.9 million at June 30, 2014. While various factors accounted for this change, the most significant factors include an increase in investment income, an increase in the net increase/decrease in the fair value of investments, and a decrease in bonds payable.
- Mortgage loans receivable decreased by \$21.0 million, or 1.1%, from \$1,987.3 million on June 30, 2013, to \$1,966.3 million on June 30, 2014. During FY 2014, single-family mortgage loan originations increased by \$15.1 million, or 7.1%, from \$212.2 million at June 30, 2013, to \$227.3 million at June 30, 2014. Mortgage loan prepayments and repayments decreased by \$22.1 million, or 8.3%, from \$267.3 million at June 30, 2013, to \$245.3 million at June 30, 2014.
- Total liabilities decreased \$164.2 million, or 7.5%, from \$2,203.1 million on June 30, 2013, to \$2,038.9 million on June 30, 2014. The decrease is primarily due to a decrease in the amount of bonds issued during fiscal year 2014 as compared to fiscal year 2013, as well as an increase in the redemption of bonds, due to more frequent bond calls, as compared to fiscal year 2013.

Comparison of FY 2013 to FY 2012

- THDA's total net position decreased by \$17.0 million, or 3.1%, from \$543.5 million at June 30, 2012, to \$526.5 million at June 30, 2013. While various factors accounted for this change, the most significant factors include a decrease in mortgage interest income, a decrease in the net increase/decrease in the fair value of investments, and an increase in bonds payable.
- Mortgage loans receivable decreased by \$109.3 million, or 5.2%, from \$2,096.6 million on June 30, 2012, to \$1,987.3 million on June 30, 2013. During fiscal year 2013, single-family mortgage loan originations decreased by \$23.6 million, or 10.0%, from \$235.7 million at June 30, 2012, to \$212.2 million at June 30, 2013. Conversely, mortgage loan prepayments and repayments increased by \$58.3 million, or 28.0%, from \$209.0 million at June 30, 2012, to \$267.3 million on June 30, 2013.
- Total liabilities increased \$119.3 million, or 5.7%, from \$2,083.8 million at June 30, 2012, to \$2,203.1 million at June 30, 2013. The increase is primarily due to an increase in the amount of bonds issued during fiscal year 2013 as compared to fiscal year 2012, as well as a small decrease in the redemption of bonds as compared to fiscal year 2012.

Changes in Net Position

The following table summarizes the changes in revenues, expenses, and changes in net position between fiscal years (expressed in thousands):

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Operating revenues:			
Mortgage interest income	\$ 102,108	\$109,158	\$116,015

Change in net position	\$ 461	\$(17,034)	\$ 38,276

Comparison of FY 2014 to FY 2013

Total operating revenues increased \$4.8 million, or 3.9%, from \$122.7 million for the year ended June 30, 2013, to \$127.5 million for the year ended June 30, 2014. The primary reasons for this increase are as follows:

- Investment income increased \$10.7 million, or 246.0%, from a net loss of \$4.3 million in 2013 to \$6.3 million in 2014, due to the net increase in the fair value of investments by \$10.7 million.
- Mortgage interest income decreased \$7.1 million or 6.4%, from \$109.2 million in 2013 to \$102.1 million in 2014. This is due to mortgage loan prepayments exceeding the amount of mortgage loan originations. Likewise, new mortgage loan originations typically have lower interest rates than those associated with mortgage loan repayments.
- Total operating expenses decreased \$7.3 million, or 6.0%, from \$120.6 million in fiscal year 2013 to \$113.3 million in fiscal year 2014. A leading factor in this decrease is a decrease in interest expense, due to the use of mortgage loan prepayments to redeem bonds in advance of their maturities, as well as refunding outstanding bonds with new bonds bearing a lower interest rate.

Comparison of FY 2013 to FY 2012

Total operating revenues decreased \$23.0 million, or 15.8%, from \$145.7 million for the year ended June 30, 2012, to \$122.7 million for the year ended June 30, 2013. The primary reasons for this decrease are as follows:

- Investment income decreased \$16.3 million, or 136.2%, from \$12.0 million in 2012 to a net loss of \$4.3 million in 2013. While interest income from investments decreased marginally, THDA experienced a net decrease in the fair value of investments of \$15.2 million in fiscal year 2013, as compared to a net increase in the fair value of investments of \$0.3 million in fiscal year 2012.
- Mortgage interest income decreased \$6.9 million, or 5.9%, from \$116.0 million in 2012 to \$109.1 million in 2013. This is due to mortgage loan prepayments exceeding the amount of mortgage loan originations. Likewise, new mortgage loan originations typically have lower interest rates than those associated with mortgage loan repayments.
- Total operating expenses decreased \$6.7 million, or 5.3%, from \$127.3 million in fiscal year 2012 to \$120.6 million in fiscal year 2013. A leading factor in this decrease is a decrease in interest expense, due to the use of mortgage loan prepayments to redeem bonds in advance of their maturities, as well as refunding outstanding bonds with new bonds bearing a lower interest rate.
- For the year ended June 30, 2013, total operating expenses decreased \$6.7 million, or 5.3%, from \$127.3 million in 2012 to \$120.6 million in 2013. The decrease is not significant.

Debt Activity

Bonds outstanding at June 30 were as follows (expressed in thousands):

	<u>2014</u>		<u>2013</u>		<u>2012</u>	
Bonds payable	\$ 1,984,298	\$	2,136,806	\$	2,020,302	

Year Ended June 30, 2014

Total bonds and notes payable decreased \$152.5 million, or 7.1%, due primarily to a decrease in the amount of bonds issued, as well as an increase in the redemption of bonds as compared to recent fiscal years. During the fiscal year, THDA issued debt totaling \$277.8 million, with activity arising from two bond issues. With interest rates remaining at historically low levels, THDA continued to call bonds with proceeds from mortgage repayments and prepayments. THDA refunded \$61.8 million of outstanding bonds into new bond originations with lower interest rates.

Year Ended June 30, 2013

Total bonds and notes payable increased \$116.5 million, or 5.8%, due primarily to an increase in the amount of bonds issued, as well as a decrease in the redemption of bonds as compared to recent fiscal years. During the fiscal year, THDA issued debt totaling \$456.7 million, with activity arising from three bond issues. With interest rates remaining at historically low levels, THDA continued to call bonds with proceeds from mortgage repayments and prepayments. THDA refunded \$66.5 million of outstanding bonds into new bond originations with lower interest rates.

New Issue Bond Program (NIBP)

The New Issue Bond Program (NIBP) provides temporary financing for Housing Finance Agencies (HFAs) to issue new housing bonds to fund new mortgages. The United States Treasury Department will purchase securities of Fannie Mae and Freddie Mac backed by these new housing bonds. This will temporarily allow the HFAs to issue an amount of new housing bonds equal to what they would ordinarily be able to issue with the allocations provided them by Congress but are generally unable to issue given the current challenges in housing and related markets.

On December 23, 2009, THDA issued \$360 million of bonds under the NIBP, which were \$60 million (Bond Issue 2009-A2) and \$300 million (Bond Issue 2009-B1). The \$300 million 2009-B1 bonds are variable-rate taxable debt and are to be held in escrow. Upon being placed in escrow, the proceeds from these bonds are re-invested into permissible investments as required by the United States Treasury Department (generally, 28-day Treasury Bills purchased at auction). These bonds are scheduled to be released from escrow, re-designated, and converted to fixed-rate, tax-exempt bonds upon the issuance of market bonds within the framework and guidelines of the NIBP. Subsequently, THDA released, re-designated, and converted escrowed bonds (Bond Issue 2009-B) into fixed-rate, tax-exempt bonds as noted:

<u>Date</u>	<u>Amount</u>	New Bond Issue
June 17, 2010	\$56,860,000	Bond Issue 2010-A1
	17,850,000	Bond Issue 2010-A2
	85,290,000	Bond Issue 2009-B, Subseries B-1
October 27, 2010	40,000,000	Bond Issue 2010-B
	60,000,000	Bond Issue 2009-B, Subseries B-2
March 24, 2011	40,000,000	Bond Issue 2011-A
	60,000,000	Bond Issue 2009-B, Subseries B-3
August 25, 2011	40,000,000	Bond Issue 2011-B
	60,000,000	Bond Issue 2009-B, Subseries B-4
November 03, 2011	65,290,000	Bond Issue 2011-C
	34,710,000	Bond Issue 2009-B, Subseries B-5

As of June 30, 2012, all of the bonds issued under issue 2009-B1 had been released, redesignated, and converted into fixed-rate, tax-exempt bonds.

Bond Ratings

For bonds issued under the Mortgage Finance Program, Moody's Investors Service, Inc. (Moody's) has assigned THDA's bonds a rating of Aa2, and Standard & Poor's Ratings Services (S&P), a division of The McGraw-Hill Companies, Inc. has assigned THDA's bonds a rating of AA.

For bonds issued under the Homeownership Program Bonds, Moody's has assigned THDA's bonds a rating of Aa1, and S&P has assigned THDA's bonds a rating of AA+.

For bonds issued under the Housing Finance Program Bonds, Moody's has assigned THDA's bonds a rating of Aa2. These bonds are not rated by S&P.

For bonds issued under the Residential Finance Program Bonds, Moody's has assigned THDA's bonds a rating of Aa1, and S&P has assigned THDA's bonds a rating of AA+.

There were no revisions to THDA's bond ratings during fiscal year 2014 or 2013.

Debt Limits

In accordance with *Tennessee Code Annotated*, 13-23-121, THDA operates under a "debt ceiling" of \$2,930,000,000.

Grant Programs

During fiscal years 2007 through 2009, the General Assembly has appropriated revenue to THDA for grant programs. Likewise, THDA's board of directors has allocated additional THDA funds for grants. These funds established a grant program that has been titled by the THDA as the "Tennessee Housing Trust Fund."

The four-level model for funding this grant program includes state appropriations, THDA funds, private-sector investment, and matching funds from local grantees. The purpose of this grant program is to serve the needs of low and/or very low income, elderly, and special needs Tennesseans. Funding and uses for the Housing Trust Fund are as follows:

In addition to the above funding, local grants could produce an additional \$4 million or more in funding each year. Also, the Emergency Repairs for the Elderly program and the Competitive Grants have a 50% grantee match requirement.

THDA is seeking additional private sector funding. In addition to the above approved uses, THDA received requests that merit funding. These requests totaled approximately \$6 million more than the funds available.

Current Mortgage Products and Environment

In October 2013, THDA made a significant change to its mortgage lending program. On October 1, 2013, the *Great Choice* and the *Great Choice Plus* loan programs were introduced and the *Great Rate*, *Great Advantage* and *Great Start* loan programs were eliminated. The *Great Choice* loan program offers THDA the opportunity to offer a more competitive interest rate on its 30-year fixed rate mortgage product while still offering down payment assistance with the addition of the *Great Choice Plus* loan program, which is a second mortgage at a 0% interest rate for a term of 10 years.

A special interest rate reduction on the *Great Choice* loan program has been designated to ensure that qualified service men and women have access to affordable homeownership opportunities. This special offer, referred to as "*Homeownership for the Brave*," provides a 0.5% rate reduction on the current interest rate for *Great Choice* loans. In addition to the rate reduction,

Homeownership for the Brave applicants are eligible for optional down payment and closing cost assistance through the Great Choice Plus second mortgage loan at a 0% interest rate.

All loans made or purchased by THDA are fixed-rate mortgages with a maximum loan term of 360 months (30 years), and must conform to insurer/guarantor underwriting guidelines. THDA does not make or purchase adjustable rate mortgages (ARMs), interest-only mortgages, "buydown" loans, mortgages with a future lump-sum payment due (balloon-type mortgage), or with other similar mortgage terms. THDA does not make or purchase "sub-prime" mortgage loans. Single-family mortgage loans purchased by THDA with loan-to-value (LTV) ratios between 78% and 97% must have an acceptable insurer/guarantor, which includes

- United States Department of Housing and Urban Development (FHA),
- Veterans Administration Guaranty Program (VA),
- United States Department of Agriculture Rural Development, formerly Farmers Home Administration (USDA/RD), and
- private mortgage insurance.

THDA will accept private mortgage insurance provided from private mortgage insurers who are licensed by the Tennessee Commissioner of Commerce and Insurance to do business in Tennessee and are rated at least AA by Standard & Poor's Rating Group. THDA will allow privately insured loans underwritten using nationally accepted underwriting guidelines established by Fannie Mae or Freddie Mac. These loans must be approved through an automated underwriting system such as Desktop Underwriter or Loan Prospector with no expanded approvals. Such privately insured mortgage loans may have loan-to-value ratios up to and including 97% of the lesser of the purchase price or the appraised value. Loans with a 78% LTV or lower do not require mortgage insurance. A detailed chart of these mortgage loan products and primary mortgage loan terms may be obtained from THDA's internet site at http://www.thda.org/index.aspx?NID=8.

For the past several years, THDA has closely monitored its loan portfolio for delinquency and foreclosures. This monitoring has included analysis based on loan type (*Great Choice, Great Choice Plus*, or *Homeownership for the Brave*); insurer/guarantor (FHA, VA, RD, private mortgage insurer); mortgage loan servicer; down-payment assistance; and other factors as deemed necessary.

As of June 30, 2014, the delinquency and foreclosure rates for its single-family loan portfolio are as follows:

	Total Number of	Number of Loans	Principal	
Loan Status	Loans Serviced	in Status	Amount	Percentage
60-89 Days Past Due	24,696	476	36,569,088	1.93%
90+ Days Past Due	24,696	1,284	102,510,630	5.20%
In Foreclosure	24,696	485	37,182,049	1.97%

As of June 30, 2013, the delinquency and foreclosure rates for its single-family loan portfolio are as follows:

	Total Number of	Number of Loans	Principal	
Loan Status	Loans Services	in Status	Amount	Percentage
60-89 Days Past Due	25,265	554	40,491,422	2.19%
90+ Days Past Due	25,265	1,181	89,505,286	4.67%
In Foreclosure	25,265	550	45,013,301	2.18%

Note: Percentage is calculated by dividing the "Number of Loans in Status" by the "Total Number of Loans Serviced."

Economic Factors

In accordance with THDA's investment policy, THDA typically invests in short-term and long-term fixed-rate debt securities from federal agencies. As a bench-mark, THDA uses the one-, three-, and five-year Constant Maturity Treasury (CMT) rates as established by the United States Treasury.

The continuation of relatively low interest rates from a historic perspective increased the likelihood of negative arbitrage, in which the interest rates on THDA's bond issues exceeds the current investment interest rates. THDA monitors prepayments and bond investment yields, and seeks to reduce negative arbitrage by calling bonds with the funds from prepayments.

Contacting THDA's Financial Management

This financial report is designed to provide THDA's stakeholders with a general overview of THDA's finances and to show accountability for the funds that it receives, invests, and expends. Note 1. Summary of Significant Accounting Policies

Reporting Entity

The Tennessee Housing Development Agency was created by an act of the legislature (Chapter 241, Public Acts, 1973). The act was approved by the Governor on May 14, 1973. The enabling legislation can be found in Section 13-23-101 et seq., *Tennessee Code Annotated*. The purpose of the agency is to improve housing and living conditions for lower- and moderate-income persons and families in Tennessee by making loans and mortgages to qualified sponsors, builders, developers, and purchasers of low- and moderate-income family dwellings.

The agency is governed by a board of directors. The Comptroller of the Treasury, the Secretary of State, the State Treasurer, the Commissioner of the Department of Finance and Administration, and a Staff Assistant to the Governor serve as ex-officio board members of the agency. The remaining members are appointed by the Governor, the Speaker of the State Senate, and the Speaker of the State House of Representatives. Board members are to be representatives of the housing, real estate, or home building industries; the mortgage profession; local governments; or one of the three grand divisions of the state, and must be knowledgeable about the problems of inadequate housing conditions in Tennessee. One member of the board is a resident board member, as required by Section 505 of the Quality Housing and Work Responsibility Act of 1998 and 24 CFR Part 964, Subpart E. Section 13-23-101 et seq., *Tennessee Code Annotated*, was amended to revise the composition of the board of directors, effective July 1, 2013.

In order to accomplish its objectives, the agency is authorized to raise funds through the issuance of bonds and notes. Bonds and notes issued by the agency are not general obligations of the State of Tennessee or any of its political subdivisions, and neither the faith and credit nor the taxing power of the state or any political subdivision is pledged for payment of the principal or interest on such bonds or notes.

The Tennessee Housing Development Agency is a component unit of the State of Tennessee. Although the agency is a separate legal entity, the state appoints a majority of its governing body and approves its operating budget. The agency is discretely presented in the *Tennessee Comprehensive Annual Financial Report*.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Certain accounting policies and procedures are stipulated in the agency's Mortgage Finance Program, Single Family Program, Homeownership Program, Housing Finance Program, and General Residential Finance Program bond resolutions and the Single Family Mortgage Notes trust indenture. The agency follows these procedures in establishing and maintaining the various funds and accounts for its programs. Revenues and expenses applicable to each fund and account are recorded therein.

Basis of Accounting and Measurement Focus

The accompanying financial statements have been prepared using the accrual basis of accounting and the flow of economic resources measurement focus. Under this basis, revenues are recorded when earned and expenses are recorded when liabilities are incurred. When both restricted and unrestricted resources are available for use, it is the agency's policy to use the restricted resources first. All significant inter-fund transactions have been eliminated.

Capital Assets

Capital assets, which include furniture and office equipment, are defined by the agency as assets with an initial, individual cost of \$5,000 or more.

Capital assets are depreciated on a straight-line basis over the following estimated useful lives of the assets.

Description Estimated Life

Furniture 10 years Computer equipment 3 years

Restricted Assets

Restricted assets are comprised of the Debt Service Reserve Funds and the Bond Reserve Funds.

The bond resolutions require the agency to establish a Debt Service Reserve Fund or a Bond Reserve Fund for each bond issue. The bond resolutions require that if the Debt Service and Expense Funds or the Revenue Funds of a bond issue are not sufficient to provide for interest or principal and sinking fund requirements of that issue that funds be transferred from the Debt Service Reserve Fund or the Bond Reserve Fund to cover any deficiency.

Deferred Amount on Refundings and Bond Premiums and Discounts

1. Deferred Amounts on Refundings: The agency amortizes the deferred amount on refundings using the straight-line method.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

2. Bond Premiums and Discounts: Bond premiums and discounts are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable unamortized bond premium or discount.

Cash and Cash Equivalents

In addition to demand deposits and deposits in the State Pooled Investment Fund administered by the State Treasurer, this classification includes short-term investments with original maturities of three months or less from the date of acquisition.

Investments

The agency has established guidelines for its funds to meet the requirements of the bond resolutions and to comply with the statutes of the State of Tennessee. Permitted investments include the following: direct obligations of the U.S. Treasury and U.S. agencies; obligations guaranteed by the U.S.; public housing bonds secured by contracts with the U.S.; direct and general obligations of the State of Tennessee or obligations guaranteed by the State of Tennessee; obligations of other states or instrumentalities thereof which are rated in either of the two highest rating categories by Moody's Investor Service or Standard & Poor's Corporation; interest bearing time or demand deposits; collateralized certificates of deposit in authorized state depositories; and repurchase agreements collateralized by authorized securities.

Investments are stated at fair value, except for repurchase agreements, which are reported at cost.

Accrual of Interest Income

Interest on first mortgage loans receivable and investment securities is credited to income as earned and classified as interest receivable.

Mortgages

Mortgages are carried at their original amount, less collected principal.

Operating Revenues and Expenses

The agency was created with the authority to issue bonds to the investing public in order to create a flow of private capital through the agency into mortgage loans to certain qualified individuals and qualified housing sponsors. The agency's primary operation is to borrow funds in the bond market and issue those funds to make single-family and multi-family loans. The primary operating revenue is the interest income on outstanding mortgages and the investment income from proceeds of bonds. The primary operating expense of the agency is the interest expense on bonds outstanding.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Note 2. Deposits and Investments

Deposits

<u>Custodial Credit Risk</u>--Custodial credit risk for deposits is the risk that in the event of a bank failure, the agency's deposits may not be returned.

The laws of the State of Tennessee require that collateral be pledged to secure all uninsured deposits. The agency's bond resolutions require deposits to be fully secured.

The agency's deposits are in financial institutions that participate in the bank collateral pool administered by the State Treasurer, except as noted below. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

At June 30, 2014, the bank balance was \$4,872,373. At June 30, 2013, the bank balance was \$18,982,252. All bank balances at June 30, 2014, and June 30, 2013, were insured, except the Bank of New York Mellon (BNYM) accounts. The U.S. Department of the Treasury requires the funds for the Hardest Hit Fund program to be deposited in the BNYM accounts. THDA has no obligation to ensure that the funds in the accounts are collateralized should the amount of money in the account be in excess of the FDIC insurance coverage of \$250,000. THDA will not be responsible for a loss of the funds due to the bank's failure and the lack of adequate collateral. Of the bank balance at June 30, 2014, \$4,545,816 was in the BNYM. Of this amount, \$4,295,816 exceeded the FDIC insurance coverage. Of the bank balance at June 30, 2013, \$18,490,778 was in the BNYM. Of this amount, \$18,240,778 exceeded the FDIC insurance coverage. The agency has deposits in the State Pooled Investment Fund administered by the State Treasurer. The fund is not rated by a nationally recognized statistical rating organization. The fund's investment policy and required risk disclosures are presented in the State of Tennessee Treasurer's Report. That report is available on the state's website at www.treasury.tn.gov.

Investments

As stated in the agency's investment policy, the "prudent man rule" shall be the standard of prudence used by all officials responsible for the investment of assets. Investments are made as a prudent person would be expected to act in the management of his or her own affairs, with consideration of the safety of capital and the probability of income, and avoidance of speculative investments.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

The agency's investment policy states that the agency's portfolios will be diversified in order to reduce the risk of loss resulting from concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The agency may invest 100% of its portfolio in U.S. government securities. A minimum of 5% of the par value of total investments must mature within five years. No more than 50% of the par value of the combined portfolios can be invested in maturities greater than 15 years without approval of the Bond Finance Committee.

Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements.

<u>Interest Rate Risk</u>--Interest Rate Risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment.

Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price.

The portfolios include the following investments, stated at par or face value, which have fair values highly sensitive to interest rate changes. These investments are recorded at fair value in the statement of net position.

Variable Rate Bonds

The agency purchased \$2,350,000 in step-up rate bonds issued by Federal Home Loan Bank. They were purchased at 99.75 of par on June 11, 2012, and mature on June 11, 2027. The fair value of these securities on June 30, 2014, is \$2,221,859, and on June 30, 2013, was \$2,186,370, included in U.S. Agency Coupon in the tables above. This investment has a stated coupon rate of 2.0% with a step-up option to 2.5% on June 11, 2016, to 3.0% on June 11, 2020; to 4.0% on June 11, 2022; to 6.0% on June 11, 2023; to 7.0% on June 11, 2024; to 8.0% on December 11,

Note 3. Accounting Change

During the year ended June 30, 2013, the agency implemented GASB Statement 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements; GASB Statement 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position; and GASB Statement 65, Items Previously Reported as Assets and Liabilities.

Implementation of GASB 62 did not have any financial reporting impact to the agency. Implementation of GASB 63 required the reclassification of net assets to net position, and it also required the deferred amount on refundings to be classified as a deferred outflow of resources. Implementation of GASB 65 recognizes bond cost of issuance as an expense.

Redemption of Bonds and Notes

During the year ended June 30, 2014, bonds were retired at par before maturity in the Homeownership Program in the amount of \$217,425,000, in the Housing Finance Program in the amount of \$60,775,000, and in the Residential Finance Program in the amount of \$15,555,000. The respective carrying values of the bonds were \$221,007,463, \$61,136,292, and \$15,821,689. This resulted in revenue to the Homeownership Program of \$3,582,463, to the Housing Finance Program of \$361,292, and to the Residential Finance Program of \$266,689.

On May 30, 2013, the agency issued \$215,905,000 in Residential Finance Program Bonds, Issue 2013-1. On July 1, 2013, the agency used \$75,905,000 of these bonds to refund bonds previously issued in the Mortgage Finance Program (this amount consists of \$47,985,000 early redemption) and Homeownership Program (this amount consists of \$27,920,000 early redemption). The carrying amount of these bonds was \$75,905,000. The refunding reduced the agency's debt service by \$8,688,786 over the next 18 years, and the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$9,063,606.

On November 19, 2013, the agency issued \$121,300,000 in Residential Finance Program Bonds, Issue 2013-2. On January 1, 2014, the agency used \$31,300,000 of these bonds to refund bonds previously issued in the Homeownership Program (this amount consists of \$31,300,000 early redemption). The carrying amount of these bonds was \$31,300,000. The refunding increased the agency's debt service by \$1,548,956 over the next 20 years, and the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$2,485,956.

During the year ended June 30, 2013, bonds were retired at par before maturity in the Mortgage Finance Program in the amount of \$10,235,000, in the Homeownership Program in the amount of \$199,355,000, and in the Housing Finance Program in the amount of \$31,315,000. The respective carrying values of the bonds were \$10,235,000, \$202,501,590, and \$31,515,181. This resulted in revenue to the Homeownership Program of \$3,146,590 and to the Housing Finance Program of \$200,181.

On July 19, 2012, the agency issued \$133,110,000 in Homeownership Program Bonds, Issue 2012-1. On September 1, 2012, the agency used \$43,865,000 of these bonds to refund bonds previously issued in the Homeownership Program (this amount consists of \$43,865,000 early redemption). The carrying amount of these bonds was \$43,865,000. The refunding reduced the agency's debt service by \$10,700,210 over the next 20 years, and the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$6,206,292.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

On November 15, 2012, the agency issued \$97,625,000 in Homeownership Program Bonds, Issue 2012-2. On January 1, 2013, the agency used \$22,625,000 of these bonds to refund bonds previously issued in the Homeownership Program (this amount consists of \$22,625,000 early redemption). The carrying amount of these bonds was \$22,625,000. The refunding reduced the agency's debt service by \$8,510,283 over the next 20 years, and the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$3,758,068.

Note 5. Restricted Net Position

The amount shown on the statement of net position as Restricted for Single Family Bond Programs is contractually pledged, under the bond resolutions of the agency, to the owners of the bonds issued under such bond resolutions. As pledged assets, the contractual provisions of the bond resolutions restrict the use of such assets. However, the assets may be removed from the lien of the bond resolutions if certain parity tests, as established by the respective bond resolutions, are satisfied. Assets removed from the lien of the respective bond resolutions may be used for other purposes.

The amount shown as Restricted for Grant Programs represents unexpended grant money that has been awarded to grantees through various grant programs administered by the agency.

The amount shown as Restricted for Homebuyers Revolving Loan Program represents the amount of net position restricted for a pilot program that funds zero interest loans for down payment and closing costs. The use of this net position is restricted under legislation enacted in fiscal year 1986.

Note 6. Defined Benefit Pension Plan

The agency contributes to the Tennessee State and Political Subdivision Employees Pension Plan (TSPSEPP), an agent, multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement, death, and disability benefits, as well as annual cost-of-living adjustments to plan members and their beneficiaries. Title 8, Chapters 34-37, *Tennessee Code Annotated*, establishes benefit provisions. State statutes are amended by the Tennessee General Assembly.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for TSPSEPP. That report is available on the state's website at www.treasury.tn.gov/tcrs.

Plan members are noncontributory. The agency is required to contribute at an actuarially determined rate. The current rate is 15.03% of annual covered payroll. Contribution requirements for the agency are established and may be amended by the TCRS' Board of Trustees. The agency's contributions to TCRS for the years ended June 30, 2014, 2013, and 2012, were \$1,739,493, \$1,692,847, and \$1,632,095. Those contributions met the required contributions for each year.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Note 7. Provisions for Mortgage Loan Losses

Most mortgage loans are insured by the Federal Housing Administration (FHA) or an approved private mortgage insurance company, or are guaranteed by the Department of Veterans Affairs. The agency's board of directors has established a loan loss reserve of \$750,000 as a provision for potential loan losses arising from participation in the Rural Economic and Community Development (RECD) Loan Guarantee Program. An additional \$232,000 was established as a loan loss reserve against potential losses on loans not specifically covered by one of the above programs, and \$500,000 was established as a loan loss reserve for self-insurance of second mortgages.

Since the amount of net position restricted for single-family bond programs exceeds the amounts necessary for these loan loss reserves, it is not necessary to designate unrestricted net position for this purpose.

Note 8. Insurance-Related Activities

Commercial Insurance

The agency carries commercial insurance for risks of loss related to employee dishonesty; general liability protection; and theft of, damage to, or destruction of real and personal property. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Risk Management Fund

It is the policy of the state not to purchase commercial insurance for the risks associated with casualty losses for general liability, automobile liability, professional medical malpractice, and workers' compensation. The state's management believes it is more economical to manage these risks internally and set aside assets for claim settlement in its internal service fund, the Risk Management Fund. The state purchases commercial insurance for real property and crime and fidelity coverage on the state's officials and employees. For property coverage, the deductible for an individual state agency is the first \$25,000 of losses. The Risk Management Fund is responsible for property losses for the annual aggregate deductible of \$10 million for perils other than earthquakes and flood. Purchased insurance coverage is responsible for losses exceeding the \$10 million per occurrence. The maximum insurance coverage is \$750 million per year for perils other than earthquake and flood. The maximum flood insurance coverage is \$50 million per occurrence, except there is only \$25 million of coverage in flood zones A and V. The maximum earthquake

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

insurance coverage is \$50 million per occurrence. The amounts of settlements have not exceeded insurance coverage for each of the three past fiscal years.

The agency participates in the Risk Management Fund. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the agency based on a percentage of the agency's expected loss costs, which include both experience and exposures. This charge considers recent trends in actual claims experience of the state as a whole. An actuarial valuation is performed as of fiscal year-end to determine the fund liability and premium allocation. Information regarding the determination of the claims liabilities and the changes in the balances of the claims liabilities for the year ended June 30, 2013, is presented in the *Tennessee Comprehensive Annual Financial Report*. The CAFR is available on the state's website at www.tn.gov/finance/act/cafr.shtml. Since the agency participates in the Risk Management Fund, it is subject to the liability limitations under the provisions of the Tennessee Claims Commission Act, Section 9-8-101 et seq., *Tennessee Code Annotated*. Liability for negligence of the agency for bodily injury and property damage is limited to \$300,000 per person and \$1,000,000 per occurrence. The limits of liability under workers' compensation are set forth in Section 50-6-101 et seq., *Tennessee Code Annotated*. Claims are paid through the state's Risk Management Fund.

Employee Group Insurance Fund

The state has also set aside assets in the Employee Group Insurance Fund, an internal service fund, to provide a program of health insurance coverage for the employees of the state with the risk retained by the state. The agency participates in the Employee Group Insurance Fund. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the agency based on estimates of the ultimate cost of claims, including the cost of claims that have been reported but not settled and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims.

Note 9. Other Postemployment Benefits

Healthcare is the only other postemployment benefit (OPEB) provided to employees. The State of Tennessee administers a group health insurance program, which provides postemployment health insurance benefits to eligible THDA retirees. This program includes two plans--the State Employee Group Plan and the Medicare Supplement Plan. For accounting purposes, the plans are agent multiple-employer defined benefit OPEB plans. Benefits are established and amended by an insurance committee created by Section 8-27-101, *Tennessee Code Annotated*. Prior to reaching the age of 65, members have the option of choosing between the standard or partnership preferred provider organization (PPO) plan for healthcare benefits. Subsequent to age 65, members who are also in the state's retirement system may participate in the Medicare Supplement Plan. That plan does not include pharmacy. The plans are reported in the *Tennessee*

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Comprehensive Annual Financial Report. That report is available on the state's website at www.tn.gov/finance/act/cafr.shtml.

<u>Special Funding Situation</u>--The State of Tennessee is legally responsible for contributions to the Medicare Supplement Plan that covers the retirees of other governmental entities, including the Tennessee Housing Development Agency (see Note 10). The state is the sole contributor for the THDA retirees that participate in the Medicare Supplement Plan and, therefore, is acting as the employer.

Funding Policy--The premium requirements of plan members of the State Employment Group Plan are established and may be amended by the insurance committee. The plans are self-insured and financed on a pay-as-you-go basis with the risk shared equally among the participants. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs of the plan are allocated to plan participants. In accordance with Section 8-27-205(b), *Tennessee Code Annotated*, retirees in the State Employee Group Plan who have not reached the age of 65 pay the same base premium as active employees in the plan, adjusted for years of service. Retirees with 30 years of service pay 20% of the total premium. Retirees with 20 but less than 30 years of service pay 30% of the total premium. Retirees with less than 20 years of service pay 40% of the total premium. Retirees with 30 years of service receive \$50 per month; retirees with 20 but less than 30 years of service, \$25.

<u>Funded Status and Funding Progress:</u> The funded status of THDA's portion of the State Employee Group Plan as of July 1, 2013, was as follows (thousands):

Actuarial valuation date	7	7/01/2013	
Actuarial accrued liability (AAL)	\$	2,964	
Actuarial value of plan assets		-0-	
Unfunded actuarial accrued liability (UAAL)	\$	2,964	
Actuarial value of assets as a % of the AAL		0%	
Covered payroll (active plan members)	\$	9,841	
UAAL as a percentage of covered payroll		30%	

Actuarial valuations involve estimates of the value of reported amounts and probability assumptions far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

<u>Actuarial Methods and Assumptions</u>--Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2013, actuarial valuation for the Employee Group Plan, the Projected Unit Credit actuarial cost method was used. The actuarial assumptions included a 4% investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 7.5% initially. The rate decreases to 7% in fiscal year 2015, and then reduces by decrements to an ultimate rate of 4.7% in fiscal year 2044. All rates include a 2.5% inflation assumption. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a 30-year period beginning with July 1, 2007. Payroll is assumed to grow at a rate of 3%.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Note 10. On-Behalf Payments

During the year ended June 30, 2014, the State of Tennessee made payments of \$4,942 on behalf of THDA for retirees participating in the Medicare Supplement Plan, and during the year ended June 30, 2013, made payments of \$4,715. The Medicare Supplement Plan is a postemployment benefit healthcare plan and is discussed further in Note 9. The plan is reported in the *Tennessee Comprehensive Annual Financial Report*. That report is available on the state's website at www.tn.gov/finance/act/cafr.shtml.

Note 11. Payments to Primary Government

From time to time, the State of Tennessee has called upon the agency and its resources, together with resources of other departments, agencies, and organizations in state government, to provide funds to the State General Fund to balance the state budget. The following is a description of these occurrences in relationship to the agency. On June 30, 1995, \$15,000,000 from the agency's Housing Program Reserve Fund was transferred to the State General Fund. On June 30, 1998, \$43,000,000 was transferred from the agency to the State General Fund. The \$43,000,000 transferred from the agency came from the following resources of the agency: (i) \$15,459,157 from tax revenues previously directed to the Housing Program Fund; (ii) \$5,028,761 from the Housing Program Reserve Fund; and (iii) \$22,512,082 from the Assets Fund. On June 30, 2002, a transfer from the agency to the primary government in the amount of \$35,367,449 was made from the Assets Fund for the sole purpose of meeting the requirements of funding the operations of the primary government for the year ended June 30, 2002.

Note 12. National Mortgage Settlement Funds

The State of Tennessee received \$41,207,810 from the United States Attorney General for the National Mortgage Settlement. In June 2012, the agency received \$34,500,000 of the \$41,207,810. The agency plans to use those funds to expand the Keep My Tennessee Home financial assistance program to include long-term medical hardships and to provide foreclosure counseling.

Note 13. Final Redemption/Transfer of Assets

Final Redemption under Mortgage Finance Program Bonds

During the fiscal year ended June 30, 2014, the agency redeemed all remaining bonds that were issued under the Mortgage Finance Program.

Notes to the Financial Statements (Continued) June 30, 2014, and June 30, 2013

Transfer of Assets to General Residential Finance Program Bonds

During the fiscal year ended June 30, 2014, the agency transferred certain assets from the Mortgage Finance Program to the General Residential Program for the purpose of improving the Program Assets to Debt Ratios in the General Residential Finance Program.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Honorable Bill Haslam, Governor Members of the General Assembly Members of the Board of Directors Mr. Ralph Perrey, Executive Director

We have audited the financial statements of the Tennessee Housing Development Agency, a component unit of the State of Tennessee, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the agency's basic financial statements, and have issued our report thereon dated November 3, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be

material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
